

The Management of Avioparts, through this statement, communicates its commitment to the development and implementation of the Quality Management System in accordance with EN 9120.

Avioparts quality objective is to meet or exceed customer requirements and expectations in a proactive, professional and cost effective manner.

To achieve this objective Avioparts will:

- Establish and maintain a Quality Management System.
- Set objectives and targets to measure our performance and identify opportunities for improvement.
- Provide adequate resources to continually review and improve our business process.
- Encourage all people to integrate quality management into the way we work and promote its application as a method for continual improvement within their area of responsibility.
- Actively seek performance feedback from our customers and address opportunities for improvement that are identified.

Avioparts ensure supply reliability, product quality and timely delivery of the supplied products performing periodic evaluations to ensure our commitment to the highest level of our operational standards.

We are committed to:

- High-quality products that meet or exceed equipment specifications and customer needs under all reasonable circumstances
- Services that reliably meet responsible standards of performance, efficiency and courtesy
- Accurate information about our products and services, including details about guarantees and warranties

Chief Executive Officer
